CANC RES

SET -

The control panel on the right side of the steering wheel features several buttons with white icons and text. From top to bottom, the buttons are: a signal strength indicator (four bars), a 'CANC' button with a cancel icon, a 'RES' button with a resume icon, and a 'SET -' button. The 'SET +' button is located above the 'CANC' and 'RES' buttons. The panel is framed by a brushed metal trim.

UP

A close-up photograph of a car's interior speaker. The speaker is a rectangular unit with a silver-colored metal grille. On the right side of the grille, there is a circular tweeter with a small, glowing orange dome. Below the grille, the text "harman/kardon" is printed in a white, sans-serif font. Below the speaker, a dark, textured surface is visible, featuring the "RAM" logo in a large, metallic, three-dimensional font. A faint, diagonal watermark reading "TOMMY" is overlaid on the image.

harman/kardon

RAM

A close-up photograph of a car's interior, focusing on a speaker. The speaker is a black, trapezoidal shape with a fine, woven mesh grille. The text "harman/kardon" is printed in a small, white, sans-serif font in the center of the grille. The speaker is mounted on a dark, textured surface, likely leather or a similar material. To the right of the speaker, a portion of a bright red, glossy object is visible, possibly a door panel or a piece of trim. The lighting is soft, highlighting the texture of the materials and the fine details of the speaker grille.

harman/kardon

harman/kardon

harman/kardon

SF2L SUPERCHARGED

A close-up photograph of the front fender of a red vehicle. The fender is highly reflective, showing a clear reflection of a sunset sky with orange and purple clouds. A silver, three-dimensional 'RAM' badge is mounted on the fender. To the left, a portion of a silver wheel arch and a black tire tread are visible. The overall lighting is warm, suggesting a late afternoon or sunset setting.
